Re: 167-14427-00014
Fifth Administrative Amendment to
FESOP 167-5933-00014

Dear Mr. Spary:

Rose-Hulman Institute of Technology was issued a permit on December 13, 1996 for a boiler based heating system for a private school. Rose-Hulman Institute of Technology has also received four (4) previous Administrative Amendments on the following dates: April 27, 1998, January 10, 2000, February 15, 2000, and July 20, 2000, respectively. A letter requesting the following additions for The White Chapel was received on May 23, 2001: electric water heater, an air-handling unit with electric cooling only, and three (3) natural gas fired furnaces rated at a capacity of 0.120 million (MM) Btu per hour each, and one (1) natural gas fired furnace rated at a capacity of 0.060 million (MM) Btu per hour. The natural gas furnaces will have electric cooling capabilities. Pursuant to the provisions of 326 IAC 2-8-10 the permit is hereby administratively amended as follows:

The addition of the electric water heater and the three (3) natural gas fired furnaces will be covered in the Permit (Condition A.3) and Technical Support Document (TSD) under the insignificant activities. Therefore, there will not be any language changes made to the Permit and/or TSD.

All other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this amendment and the following revised permit pages to the front of the original permit.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Mr. Darren Woodward, at (812) 462-3433, ext. 15.

Sincerely,

George M. Needham
Director
Vigo County Air Pollution Control
